Subject: Not fun in Florida sun

Thanks for sharing your stories. Although I would not wish this horrific dilemma on anyone, it certainly is a relief to know that I am not delusional. It isn't bad enough to have this but then to be told your delusional/crazy. Well here are some things that have helped me:

1. Sweating: try to keep this to a minimum. I have noticed my body temperature has risen and I am always very hot as a result of this. The second I start to sweat I get the itchies, creepy crawly sensations etc.
2. When doing any kind of cleaning I wear rubber gloves and a FACE MASK. I think that this disease causes a huge sensitivity to dust mites, pollens and normal daily allergens that before never bothered me. Immediately after cleaning I shower and use a **tea tree oil shampoo** that I also use on my body as soap. Much relief!
3. I have typical white, dry skin. I have found that when I moisturize with some vaseline I don't get very itchy at all. Not sure if it's Vaseline or just moisturizing my skin, but don't get creepy crawly sensation.
4. I have tried that recipe of bathing in **Sun Laundry Soap** with **Color Safe Bleach** and **Alfalfa Tablets** and was extremely pleased with relief I got. I do this once a month.

I am still searching for a better remedy for my hair as the texture has gone from smooth and straight to wiry, not curly but frizzed very jagged and can barely get a brush through my wet hair unless applying products galore, leaving my hair heavy, greasy just plain DISGUSTING!

African Black Soaps suggested.

Morgellons Disease Terrorizes Internet & Twitter For A Day

Well, you're right about one thing, it isn't bugs.

The reason the mainstream medical establishment is presenting Morgellon's as a mental illness is

because the truth is it is actually MANMADE self-assembling, self-replicating nanotech that is literally genetically modifying the entire human species. See the work of Clifford Carnicom, for starters.

The nano particles responsible for Morgellon's are so pervasive in the environment that it would be impossible not to have this in your system. This is the big coverup and this is why they are trying to make us look crazy. You people who are not

sick and are not seeing fibers are only "well" because your immune systems are compromised and are not rejecting this material, which has been found to be made up of cellulose, polyethylene and silicone among other things.

I just posted an article on my blog at stopgeoengineering.com entitled "Why Morgellon's Should (But WON'T) Be The Top News Story of 2012?". I will be adding references when I have the time, but in the meantime, have a look at Carnicom's work on Morgellon's, as well as the research of Dr. Hildegarde Staninger. Oh and hey, if anyone doesn't believe me, contact me via my blog and I will happily send you some of this imaginary fiber from my mind that has been oozing out of my skin every day and you can decide for yourself whether you think it's just clothing fibers.

I actually thought (hoped!) at first it might be towel fibers, since I see most of them after a hot bath. Then I started air-drying and by gum they're still there! Oh, and there is no chance I have delusional parasitosis because I KNOW I don't have parasites. I have an infestation of synthetic fibers that are the result of self replicating nanotech.

If you still the veracity of "conspiracy theories" suggesting Morgellon's is manmade, or that it may even be part of a plan to depopulate the earth and control the survivors, I suggest you educate yourself on the modern eugenics movement (rebranded "transhumanism") and watch the documentary film "Endgame: Blueprint For Global Enslavement". Put aside any prejudice you may have toward the film's producer and check the facts for yourself. I challenge you to debunk any of the information presented therein.

Something else I'd like to point out is the "visitors" page on Clifford Carnicom's website (a link is located near the bottom of his articles page at carnicominstitute.org) where he publishes his research on Morgellon's, chemtrails/geoengineering and the connection between the two.

Considering that the establishment would like us to believe that chemtrails are an unfounded

conspiracy theory, or hoax, and that Morgellon's is a delusion, it is interesting that Boeing, the Pentagon, various defense contractors, various arms of the US army and navy, NASA, Merck, Bristol-Myers Squibb and other pharmaceutical companies, Monsanto, the Mayo Clinic, Kaiser Permanente, the US senate and numerous other such organisations have all visited Carnicom's website. Many are repeat visitors, with Boeing having visited the site no less than 100 times! You would think if the guy was as crazy as they make him out to be, all these important visitors wouldn't give him the time of day. His work has attracted a lot of attention from people in high places and I think it's because Clifford's work is valid and threatens their agenda.

Chemtrail Polymers Linked to Morgellons Disease

Skin lesions resulting from Morgellons Disease

Skin lesions resulting from Morgellons Disease

Source: energeticbalancing.us; Article by Amy Worthington, GlobalResearch

YOU ARE NOW BREATHING ETHYLENE DIBROMIDE, NANO-PARTICULATES OF ALUMINUM AND BARIUM AND CATIONIC POLYMER FIBERS WITH UNIDENTIFIED BIOACTIVE MATERIAL: "We the people have not been warned, advised or consulted but are certainly vulnerable to the outcomes." Lightwatcher.com "Biologic components have been reported in airborne samples that include: modified molds, desiccated red blood cells and exotic strains of bacteria"

Additionally, award winning investigative reporter, Will Thomas, has reported findings of over 300 types of virally mutated fungi in the chemtrail fall out. The Idaho Observer has reported findings of 26 metals including barium, aluminum and uranium, a variety of infectious pathogens and chemicals and drugs including 2 sedatives in chemtrail fallout, 6 bacteria, including anthrax and pneumonia, 9 chemicals including acetylcholine chloride, 26 heavy metals including arsenic, gold, lead, mercury, silver, uranium and zinc, 4 molds and fungi, 7 viruses, 2 cancers, 2 vaccines. Dr.R. Michael Castle reports the finding of cationic polymer fibers. Others have reported findings of tiny parasitic nematode eggs of some type encased in the fibers.

Researcher Clifford Carnicom has reported finding chemtrails fibers that are an exact match with the bizarre fibers found in those suffering from Morgellons Disease. Welcome to the brave new world of toxic barium skies, weather control, mind control and population control through the use of chemtrails modulated with electromagnetic frequencies generated by HAARP.

Our health is under attack as evidenced by the skyrocketing rates of chemtrail induced lung cancer, asthma and pulmonary/respiratory problems as well as the emergence of a new plague, Morgellons Disease, an infection with a new and unknown pathogen that is seriously disabling and disfiguring. Over 12,000 families in the U.S. are now infected with Morgellons.

Our skies are increasingly hazed over with fake barium/ aluminum particulate, ethylene dibromide chemtrail clouds. Whether in the atmosphere or in the Ocean this added particulate matter is a hazard to the health of every living thing on this planet. There is a main-stream media blackout on this subject so the only way to get the word out is by word of mouth. People are already dying because of the chemtrails. Life expectancy is down. This situation presents an immediate and serious threat to you, your family and loved ones. We must join together to stop this insane program of chemtrail spraying now. Please do what you can to help.

MORGELLONS & CHEMTRAILS

One aspect of the chemtrail story is becoming more and more a story about the spread of Morgellons Disease. The bizarre, unique fibers that have been found in the bodies of the Morgellons infected have been matched to fibers found in the chemtrail fallout and in rain drops. This suggests that anybody who breathes the air may have been exposed to this disease. Researcher Clifford Carnicom has recently reported that blood abnormalities that he associates with chemtrail infection are being found in just about everyone he is testing whether or not they show the visible signs of having a Morgellons infection. “Polymer chemist Dr. R. Michael Castle has studied atmospheric polymers for years. He has found that some of them contain bioactive materials, which can cause “serious skin lesions and diseases when absorbed into the skin.” He has identified microscopic polymers comprised of genetically-engineered fungal forms mutated with viruses. He says that trillions of fusarium (fungus)/virus mutated spores), which secrete a powerful mico-toxin, are part of the air we breathe.”

SELF REPLICATING NANO MACHINES HAVE BEEN FOUND “RUNNING WILD” IN THE BODIES OF MORGELLONS INFECTED INDIVIDUALS

Morgellons researchers Dr Hildegaard Stanning and Dr Karjoom have announced the finding of self replicating nano machines “running wild” in the bodies of Morgellons victims.

MORGELLONS PATHOGENS FOUND IN RAINWATER?

More stunning evidence of a Chemtrail/Morgellons connection (see photo #18); Recent microscopic examination of rainwater by researcher, Lisa Jones has revealed contamination with pathogens that have strong similarities to the Morgellons pathogen. This raindrop image shows a fiber-like lattice with a lighter colored tube that appears to contain baby Morgellons pathogens. The “thornes” on the lattice appear to be designed to cause the organism to stick and catch on skin and clothing. The

unnatural looking orangish-pink glow in certain areas of this tube look just like the unnatural appearing orange-pink glowing points that show up on many of the Morgellons organisms. Chemtrail dispersion of Morgellons would be an obvious explanation as to why this stuff is showing up in rainwater.

CHEMTRAIL POLYMERS LINKED TO MORGELLONS?

“Polymer chemist Dr. R. Michael Castle has studied atmospheric polymers for years. He has found that some of them contain bioactive materials, which can cause “serious skin lesions and diseases when absorbed into the skin.” He has identified microscopic polymers comprised of genetically-engineered fungal forms mutated with viruses. He says that trillions of fusarium (fungus)/virus mutated spores), which secrete a powerful mico-toxin, are part of the air we breathe.”

This article posted today. This is morgellons confirmed, and created by a lab in Oakland CA – epicenter of this godawful blight on humanity. The only real news here is an admission of the sugar snake design and development at Berkley Labs for our government.
